# SAFETY CALENDAR

## SEPTEMBER

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
			<b>1</b>  Your safety attitude begins and ends with <b>YOU!</b>	<b>2</b>  Be sure to report all near misses. <i>Let's stop them before they become accidents!</i>	<b>3</b>  Stepping on pallets can easily result in injury - <i>don't take that chance!</i>	<b>4</b>  Look in the direction of travel - <b>NEVER</b> drive blindly!
<b>5</b>  Remember to keep your forks low to the ground when traveling!	<b>6</b>  <b>Be sure to work safely so you can go home!</b>	<b>7</b>  Vest, safety glasses, gloves, locks and tags, proper cutters... <b>it's ALL PPE!</b>	<b>8</b>  Continuous improvement comes from continuous employee input!	<b>9</b>  Home safety is just as important as work safety. Be sure to protect your family!	<b>10</b>  Watch your head when kneeling - <i>coming up too quick can be harmful!</i>	<b>11</b>  Your input is valuable. <b>Please submit your thoughts for improvement TODAY!</b>
<b>12</b>  STOP signs and YIELD signs are for everyone's safety. <i>Don't take them lightly!</i>	<b>13</b>  <b>HANDRAILS. HANDRAILS. HANDRAILS. USE THEM!</b>	<b>14</b>  Always watch the placement of your hands while on the steering controls. <b>PINCH POINTS.</b>	<b>15</b>  <b>ALWAYS</b> keep <i>all entrances and exits clear</i> - you never know when you may need them!	<b>16</b>  Stepping on or walking across forks is not a smart move. <i>Don't take the chance!</i>	<b>17</b>  Three points of contact is always the proper procedure while operating your equipment.	<b>18</b>  Always lift with your legs, not your back. <i>Be sure to pivot, not twist!</i>
<b>19</b>  <b>Being safe is simple.</b>  Make the right decision at the right time!	<b>20</b>  Look in direction of travel to <i>minimize the chance of hitting something!</i>	<b>21</b>  Wearing your seatbelt while driving your forklift or your car is not an option. <b>BUCKLE UP!</b>	<b>22</b>  Who depends on your safety besides you? <b>YOUR FAMILY.</b>	<b>23</b>  Security can be any unfamiliar face wondering the premises.	<b>24</b>  Following too close can lead to accidents. <i>Give yourself plenty of space to stop!</i>	<b>25</b>  Attitude of safety will be your attitude in safety. <b>Positive thoughts mean positive results!</b>
<b>26</b>  Shortcuts lead to risk - which leads to accidents. <b>Don't take shortcuts.</b>	<b>27</b>  Housekeeping is a big piece of safety. <b>Keep your warehouse clean!</b>	<b>28</b>  <b>If you see something, say something!</b>  Safety, sanitation, and security - this is how we improve!	<b>29</b>  Proper stretching will prepare you for your day!	<b>30</b>  <b>Sending you home safely is how we measure success.</b>
