## TRUCKLOAD

### TRUCKLOAD IS EXPANDING HOURS

Technology is everywhere! We constantly hear sales pitches on how to improve our process, save money, and eliminate overhead – technology is not always the right answer. In our truckload division, we have recognized the need for expanded hours to assist our fleet of professional drivers and our customers. There is no technology that can replace a helpful voice on the other end of the line when someone may need a quick, reassuring answer!

With that in mind, we have recently added a Night Dispatch role to the team that will **extend our hours beyond 5:00 p.m.** In the past, our offices closed at 5:00 p.m. CST, while providing our drivers with an After Hours service. Now, we have expanded office hours to 01:00 the following morning, with plans to move to a 24/5 operation in the very near future. Truckload customers can still use LTD\_Tracking@magnumlog.com for load updates during this time, and drivers can contact the night dispatch for their needs as well.

As Magnum continues to grow, this has become a necessary step for us. We are very happy and excited to provide this for both drivers and customers alike!

### MICHAEL WAMHOFF: 2021 OTR SAFETY DRIVER OF THE YEAR

Congratulations, Michael! We applaud you on your commitment to keeping our highways safe. Well done, we couldn't be more proud!
