# SAFETY CALENDAR

## JUNE

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
			<b>1</b> Proceed slowly around blind corners. <i>Stop, look both ways and honk!</i>	<b>2</b> There is no difference between safety and security. <i>It's all about keeping you safe!</i>	<b>3</b> <b>Be a leader for safety!</b> If someone is working unsafe, teach them the right way!	<b>4</b>  Report near misses - they are accidents waiting to happen!
<b>5</b>  Be sure to a complete stop when exiting your vehicle!	<b>6</b> <b>Always use designated and safe walkways through the warehouse!</b>	<b>7</b>  <i>Leave enough space between you and the next driver!</i>	<b>8</b>  <b>NEVER</b> step on your equipment forks!	<b>9</b>  When crossing paths with fork operators, <b>you MUST make eye contact!</b>	<b>10</b>  <b>Be sure to pick up loose boards!</b>	<b>11</b>  Are you as safe at home as you are at work?
<b>12</b>  Pivot, don't twist!  Bend at the knees, and lift with your legs!	<b>13</b>  <i>Stretching before work is beneficial to all your muscles!</i>	<b>14</b>  <b>Take notice of your closest emergency exit door</b> - you never know when you may need it!	<b>15</b>  <b>Never try to stop product from falling.</b> It's much easier to replace product than to fix you!	<b>16</b>  Never use a frayed or damaged electrical extension cord!	<b>17</b>  <i>Be sure to use handrails up and down the stairs to prevent trips and falls!</i>	<b>18</b>  <b>PPE is only good if it's the correct PPE for the job!</b>
<b>19</b>  <b>Work smarter, not harder!</b> <i>If a case is too heavy, get help lifting!</i>	<b>20</b>  Always be on the lookout for strangers.  <b>See something? Say something!</b>	<b>21</b>  <i>Leave enough traveling space between you and the next driver!</i>	<b>22</b>  <b>Avoid climbing racks!</b> The potential fall is not worth it!	<b>23</b>  Safety never takes a break. Always stay on guard for unsafe behavior.	<b>24</b>  Who's responsible for your safety? <b>We all are - teamwork!</b>	<b>25</b>  <b>Everyone's safety is everyone's problem!</b>
<b>26</b>  Safety first actually means family first, because that's who wins.	<b>27</b>  <b>Don't stand pallets on end.</b> People can easily get hurt when they fall!	<b>28</b>  <b>Using your horn will prevent accidents and injuries!</b>	<b>29</b>  <b>NEVER attempt to stop a lift with any part of your body.</b>	<b>30</b>  Sending you home safely is how we measure success.
