10 Always leave at least <b>10 feet</b> of space when approaching a lift driver with a load in the air!	11 If you see a hazard, <b>report it ASAP!</b>	12 When taking an empty pallet out of a slot, <i>be cautious of the pallet behind it!</i>	13 In many cases, slips and falls can be prevented if good housekeeping practices are followed!	14 <b>G.O.A.L.</b>  <b>Get Out And Look!</b>	15 You must look in the direction of travel at <b>all times!</b>	16 <b>Stay safety cautious and safety focused.</b>
