

# BIG BLUE NEWS

## LTL

### LINEHAUL DISPATCH TEAM

**NEW IN 2025** – Magnum LTL is creating a centralized Linehaul Dispatch team, located in the Coon Rapids terminal. Tyler Eiffler will be the team lead, with a team of five dispatchers and administration assistants. This team will manage the flow of 4,000 shipments each night.

### LTL PARTNER CARRIERS

Magnum LTL continues to foster and grow relationships with partner carriers across the United States and Canada! These relationships help us provide the best service available to our customers.

### NEW BILLINGS TERMINAL

The newly-built Billings terminal is up and operational as of December 23! This upgraded replacement of our previous 3-door terminal now features 23 doors and has a fully heated dock. With the added space, Magnum plans to service a much larger footprint in eastern Montana!

### FREIGHT DIMENSIONING DEVICES

LTL is adding more Freight Dimensioning devices across 10 terminals in our network! The next dimensioner will be added in Kansas City this month, and the remaining nine will be added throughout the year at key terminal locations. These devices collect data that will facilitate the accuracy of Linehaul and P&D planning, as well as costing and pricing freight.

### NEW MILWAUKEE TERMINAL

Magnum's new Milwaukee terminal is officially operational as of January 6! This 56-door facility started out with four drivers, two dock employees and two administrative employees. There are plans to expand the coverage area as we continue to build out staffing!
