## RISK MANAGEMENT

### DRIVING SAFETY FORWARD WITH NETRADYNE

With Netradyne on our side, we're not just driving trucks—we're driving change. Netradyne AI transforms video data into safety insights, providing proactive coaching and positive reinforcement to keep our drivers sharp. With so much to monitor, from road signs to following distances, Netradyne delivers instant alerts that help drivers stay aware and navigate with confidence. In the event of an accident, Netradyne's HD video evidence protects our drivers and our business by providing clear facts and preventing unnecessary disputes. The Driver-i Mobile App updates weekly with GreenZone scores and coaching insights, giving drivers a clear snapshot of their performance and helping them set new goals. More than just a number, a GreenZone score tells the story of each trip, offering instant access to performance data so drivers can track progress and celebrate wins.

#### Risk Statement:

"To provide advice, support, training, and analysis to help Magnum establish risk controls and safety management processes that reflect our commitment to the health and well-being of the public and all employees."

Some roles and responsibilities have been shifting; please remember to send emails regarding the Risk Management Department to [riskmanagement@magnumlog.com](mailto:riskmanagement@magnumlog.com) so the correct person can address your request.

### MAGNUM VALUES

#### INTEGRITY

Do the right thing. Tell the truth even when it's hard. Take ownership.

#### RESPECT

Listen. Be kind.

#### RESPONSIBILITY

Do what you said you will do. Own your mistakes.

#### TEAMWORK

Work together to win. Keep your teammates safe.

#### FAMILY

Care for and help each other.
