

BIG BLUE NEWS

RISK MANAGEMENT

The Driver Development Team, made up of Aron, Chris, Sean, and Jim, focuses on helping drivers stay safe and follow the rules on the road. They use tools like Idelic and Netradyne to track driving habits, identify risks, and coach drivers to improve.

The Self-Insured Claims Team, made up of Stephanie and Abby, manages all crash-related claims for Magnum's trucks. They investigate incidents, arrange repairs, and make sure each situation is handled quickly and correctly.

The Loss Control Team, made up of Ken and Butch, handles the responsibilities of a traditional safety department. They manage injury claims, support injured employees, lead monthly training, inspect facilities, ensure OSHA compliance, and maintain important safety documentation.

Get Out And Look

Backing up a truck demands utmost caution and precision, as it can be both costly and dangerous if not executed properly. When maneuvering into spaces, it's crucial to recognize that drivers may lose sight of the back of the truck, trailer, or their surroundings. To mitigate the risks, here's a simple yet effective rule: Get Out And Look (G.O.A.L.). Taking a moment to physically assess your surroundings can make a significant difference in preventing accidents and minimizing costs. Prioritize safety – take that extra step, literally!

Get Out And Lead

In every organization, good leadership is the driving force. Those led with wisdom and vision are not only more productive but also show enhanced accountability and motivation. Here's the secret: Leadership is not confined to titles. It's a dynamic blend of skill and practice, a continuous personal journey rather than a destination marked by a nameplate. You don't need to be the "boss" to be a leader; it's a role anyone can embrace. Being an effective leader is a commitment, not a title. It's about intentional, consistent efforts. Positive changes begin when everyone, regardless of their role, decides to Get Out And Lead (G.O.A.L.).
