

# ONE MAGNUM MONTHLY

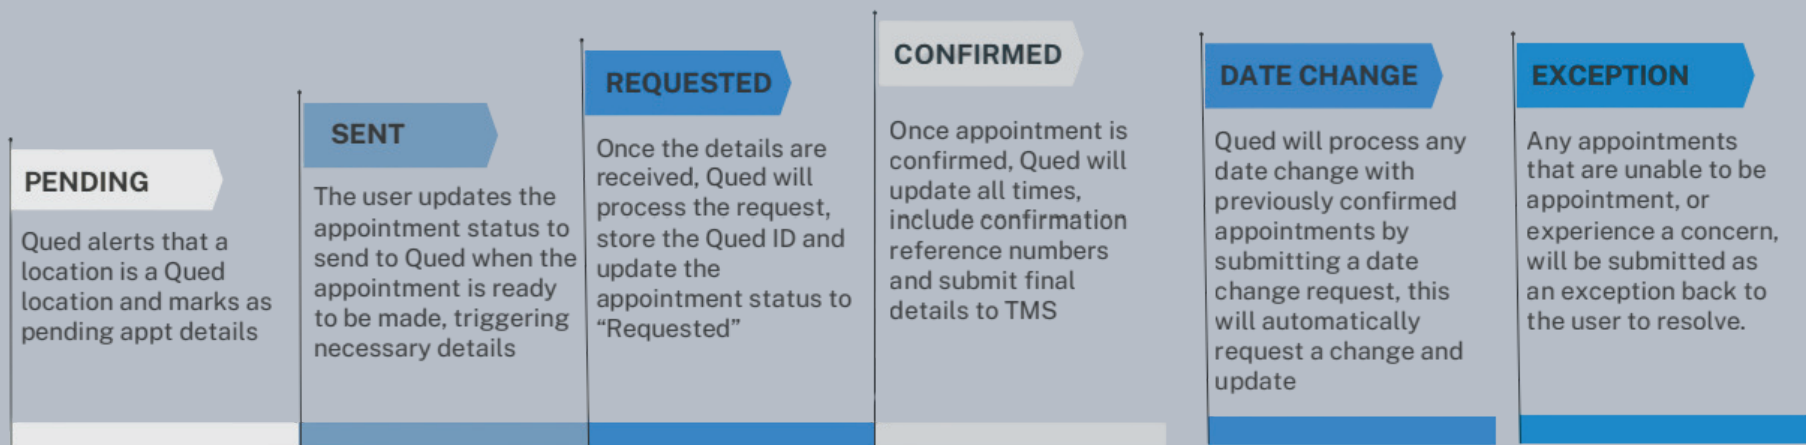

May 2026

One Team. One mission. OneMagnum.

## Logistics Update

Our Logistics team is rolling out a new tool called Qued to make scheduling faster and easier. Instead of bouncing between emails, spreadsheets, and multiple websites, Qued works directly within our system. It gives us a clear, direct line to shippers and receivers so we can secure appointment times quickly. That means freight keeps moving and delays are reduced.

From start to finish, appointment statuses are easy to track. Every step is clearly outlined, so our team knows exactly where to focus. Better visibility leads to fewer errors, fewer missed appointments, and stronger, more reliable service.
